

Group work: Look at the photo of the object assigned to your group and answer the questions:

1. What is this object? Can you describe it? How was it used during the war?
2. Imagine the object came alive and could tell the events it witnessed, what would it say?
3. Write a description of the objects' thoughts using first person.

example:

I am a mine, I was abandoned on a trench on 12 december 1915

I feel lonely and dangerous. I could hurt someone but I mean no harm

It's so noisy here. I would love to be in a quiet place.

I don't want to be a danger anymore

4. Now add the photo and your answer to the Forum. List the members of the group and your group number please.
